

OREGON: Blue Marmot

Blue Marmot Solar Park will be located in the vicinity of the town of Lakeview in southeastern Oregon, near the border of Oregon and California. Located entirely within Lake County, the solar park will complement the area's high desert and agricultural landscape while harnessing the region's abundant sun.

50 MW

COD 2022

Blue Marmot Solar Park will produce enough clean electricity to power more than **12,000** Oregon homes.¹

Economic Benefits

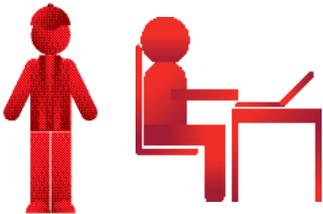

Blue Marmot represents a capital investment of **\$80 million**.²

Approximately **\$10 million** in payments to local governments through the life of the project.

Millions of dollars will be paid to local landowners through the life of the project.

Creation of hundreds of full-time equivalent jobs during construction and several permanent jobs during the life of the project.³

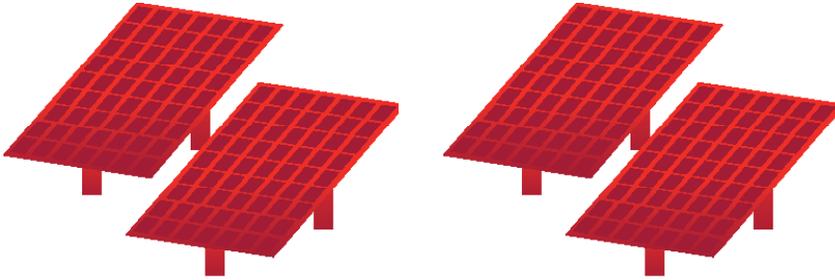

Millions of dollars will be spent within 50 miles of the solar park through the life of the project.⁴

Power generated at solar park will support Oregon's electric grid.

Panel Technology

Blue Marmot Solar Park will consist of more than **150,000** solar photovoltaic panels.

About Us

EDP Renewables North America LLC (EDPR NA) and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 53 wind farms, eight solar parks, and seven regional offices across North America, EDPR NA has developed more than 7,500 megawatts (MW) and operates more than 7,200 MW of renewable energy projects. With more than 700 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is owned by EDP Renováveis, S.A. (EDP Renewables or EDPR), a global leader in the renewable energy sector and the world's fourth-largest wind energy producer. With a sound development pipeline, first-class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 14 markets (Belgium, Brazil, Canada, Colombia, France, Greece, Italy, Mexico, Poland, Portugal, Romania, Spain, the United Kingdom, and the United States). Energias de Portugal, S.A. ("EDP"), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 13 consecutive years.

¹Power generation calculated using a 30% capacity factor. Household consumption based on the 2018 EIA Household Data monthly average consumption by state.

²Assumes the average cost of an installed solar photovoltaic system is \$0.90/watt for a utility-scale project. Based on 2019 SEIA U.S. Solar Market Insight.

³Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁴Includes vendor spending, property taxes, landowner payments and wages from site jobs.

⁵Assumes 0.58 gallons of water consumed per kWh of conventional electricity from [Lee, Han, & Elgowainy, 2016](#).

⁶Based on [2019 SEIA U.S. Solar Market Insight](#).

Blue Marmot Solar Park will save more than **65 million** gallons of water each year.⁵

POWERING THE USA
In 2019, solar represented nearly 40 percent of new electricity generating capacity in the U.S.⁶

Blue Marmot Solar Park will provide energy security and help diversify supply.
